Business Notice.

A new Subscription Book is opened. All subscriptions, except those paid in advance, will be dated from January 1st, 1894. Advance subscriptions will date from the time to which they were paid. The accounts of those in arrears will be made out up to that date and payment respectfully solicited. There are hundreds of subscribers who have not paid for five, ten and fifteen years. I have not pressed or demanded any body. I realize how hard times have been, and I felt that the subscriber, when he had a dollar or so to spare, he would pay on his paper. I thought it no use to ask a man for money when most likely, he didn't have it to spare. I want the old accounts settled up some way. If a subscriber won't pay, I wish he would say so. If he feels he can't pay, I will forgive the debt. I do hope those who can and will, will do so now, or as soon as they can.

THE TARIFF ON MATRIMONY.

In the province of Kansas they carry the principle of protective tariff to its logical conclusion. At the town of Concordia, in that province, the young lady teachers in the public schools are in the reprehensible habit of putting married and quiting school, sometimes in the very middle of the term for which they have engaged themselves to teach, thus causing much inconvenience to everybody but themselves. To correct this practice the Board of Education has adopted a rule providing that hereafter "should any of the lady teachers of the Concordia schools commit matrimony during the term for which they have been elected, they shall forfeit a sum of money equal to one half month's salary, provided they take a home man, and a sum equal to one month's salary in case the groom is imported from some other county or state." By this law a discrimination amounting to fifty per cent. *ad valorem* is made in favor of the home article, and against the foreign product. At this moment three of the lady teachers are engaged to be married, and their prospective husbands are all "foreigners," within the meaning of the law. The girls will resist the tariff on matrimony and will test its constitutionality in the courts, for it contracts in restraint of marriage are not favored by the law, why should school board regulations in restraint of marriage be allowed?—Gen. M. M. Trumbull in the Chicago Open Court.
